4th January 2012

Dear Applicant,

RE: Maths Post (Temporary)

Thank you for taking the time to consider the Maths post we require; I hope you will seriously consider applying.

Essentially our Maths results at GCSE have improved in recent years due to the very hard work, talents and commitment of the Maths team. Their dedication has produced some excellent outcomes.

We all want to build on this and ensure the trajectory of success continues into GCSE results again in 2012. To do this we want to create some "headroom" to allow us to develop greater capacity for intervention, smaller class sizes and focused group or individual work. We are therefore looking to appoint a successful and proven practitioner who can add to the work of the team, work flexibly with students and bring new ideas to the work of the curriculum area.

The successful candidate will join a forward thinking school where innovation and creativity are valued and encouraged. She or he will enjoy opportunities to bring ideas to the teaching of mathematics as well as ensure students achieve to the best of their potential.

This post will suit someone who is looking to make a real difference to the life chances of young people and who has either not lost the passion for teaching or is embarking on a career in schools. Moreover, you will find a warm welcome here at Wallasey School and the opportunities to flourish professionally.

I look forward to receiving your application and meeting you.

Yours sincerely

Philip Duffy
Headteacher

Maths Post (Temporary)

The Role:

1. Teach specific groups of students in Year 11 to help reduce class sizes across the year.
2. Teach individuals or small groups on particular aspects of GCSE maths to raise achievement.
3. Contribute ideas in terms of planning and delivery of mathematics.
- 4.

Salary:

This is negotiable depending on previous experience.

Start Date:

Immediate

End Date:

July 2012 or earlier by negotiation. (i.e., following the end of year 11 GCSE examinations)
